Re: Sienna on the Coast

Dear Joe:

I would like to take this opportunity to thank you and your company for a job well done. As you know, stringent time constraints were placed on Berkel's portion of this project. I am pleased to say that your company not only met these constraints but far exceeded my expectations. Your on site personnel performed with quality, production, and safety in mind at all times which resulted in what was probably the smoothest pile installation of my career.

In closing, I must say that it has truly been a pleasure working with a professional organization such as yours. I look forward to working with your company in the future and would recommend Berkel and Company to anyone requiring the type of services that your company provides.

Best regards,
Carothers Construction, Inc.
