Dear Mr. Mike Jones,

I wish to write this letter to express my sincere appreciation for Berkel & Companies efforts on performing the pile installation at the Mabank High School project. The piles were installed ahead of schedule and per our schedule. It was a great experience for me to have worked with your company.

I would like to commend Mark Stacy on his professionalism and commitment in completing the piles on time and in a quality fashion. I would also like to commend Steven Stewart for all his hard work, and Tracy Brettman for his upfront work on getting the pile designs approved. Working with Berkel & Company was a very good relationship.

Sincerely,

Tom Hinton
Superintendent
