Mr. Steven Duncan
Berkel and Company Contractors, Inc.
2647 S. 142nd Street, P.O. Box 335
Bonner Springs, KS 66012

Re: Tect Aerospace, Ingersoll Foundations

Dear Steven,

I just wanted to take a moment to say thank you for your efforts which contributed to making this job such a success. Your team fulfilled all that was promised and more. Per your bid, you had included 11 days to complete the job. I must admit I was somewhat skeptical in plugging this number into my schedule and putting it before the owner due to the fact that your competitor's bid schedule included an extra week. After the first few days it was already clear your team was going to complete their work in nearly half the time. In the end they completed all of the auger-cast piles in just over 5 days. The efforts your team brought forth showed excellent foresight and planning not only in the area of production but also as it relates to quality and safety. Thank you for making us shine before our new owner. We are confident this job will lead to more work with Tect Aerospace and we look forward to doing more work with Berkel and Co.

Sincerely,

MARTIN K. EBY CONSTRUCTION CO., INC.

Brian Truskett
Project Manager
