Re: Penrose Project

Attention: David J. Weatherer & Jimmy Payne,

Dear David and Jimmy,

I am writing this as the last lagging board is being placed on the north wall of our Foulger Pratt project Penrose in Arlington Virginia. What great experience we had working with Berkel. I cannot describe in words how much I enjoyed working with Jimmy in the field. When we would have a task to achieve we would all get in the trailer and figure the safest most productive way to achieve the goal at hand. Usually it would be I that wanted to go a certain direction in a certain time frame and with Jimmy's help we always left the planning table headed in that direction and every single time we able to achieve the goal. David you always had the right advice whenever I needed a question answered. You guys did a great job for the Foulger Pratt team I wanted to let you know this first hand. I look forward to working with Berkel in the future and wish each and every one of you the best. Please let James, Tom, Bill and the rest of the crew that worked here we all appreciate their hard work.

Have a safe and Happy Thanksgiving

Sincerely

Christopher C. Harmon
