September 2, 2005

Dave Weatherer:

We just want to thank you for all you have done in planning, designing, and supporting us for the shoring of the pulper pit and the winder trim pit for the Port Wentworth Fluff Pulp Project.

You were quick to participate in two planning/design sessions with our engineers and construction teams for the pulper pit. This was essential to obtaining a design that was safe, cost effective, constructible with the pile and foundation design, and able to be done in a short schedule.

You also supported us whenever we had questions. We appreciate the work you have done and look forward to working with you on another project.

Sincerely,

A handwritten signature in black ink that reads "Sally Cook". The signature is fluid and cursive, with the first name being more prominent.

Sally Cook
